

SERVICE LEARNING INTERNSHIP (STEC 4800) 5th Grade Science

PUT YOUR KNOWLEDGE AND SKILLS TO USE AND CONTRIBUTE
TO SCIENCE EDUCATION AND SCIENCE LITERACY IN YOUR COMMUNITY!

What is the Service Learning Internship?

- Junior and senior GGC students spend the entire semester conducting science labs with 5th grade students in two local Gwinnett County elementary schools.
- Interns guide their 5th grade students to generate hypotheses, perform experiments to test these hypotheses, gather data and draw conclusions.
- **Two sections available: Mon/Wed 12.00-2.45pm OR Tues/ Thurs 11.00am- 1.45pm.**
- **Internship is available to all GGC majors (not just SST) and can be used as an a 4000-elective. For Biology majors, this course will satisfy the requirement for a research experience or internship/experiential learning experience (STEC 4500/STEC 4800/BIOL 4800/BIOL 4560/BIOL 4570) or as a 4000-level elective.**

What Interns Say They Gained From the Internship

- Increased understanding of the science they have been studying in their major degree program
- Better organization and communication skills
- Better collaboration and teamwork skills to achieve a common goal or product
- More confidence in public speaking and presentations – especially presenting science to a non-science audience

For more information & Application form contact Dr. Allison D'Costa (adcosta@ggc.edu) or Dr. Clay Runck (crunck@ggc.edu).
